

Cable TV Channel List August 2022

Due to recent changes from our Sky TV provider we have updated and improved our English Language TV channels from the UK. Your AFN channels are unaffected but the UK channels have now been changed to offer a better choice in news and family entertainment for the community. You do not need to rescan your receiver but you may want to reorder and rename some of your channels. Here is how to do that:

1. Download the attached file to a USB stick
2. Insert your USB Stick into the slot on your Xoro cable box.
3. Press "Menu" on your Xoro remote control then the right arrow twice until you are on the Channel Search page. Arrow down to "Restore from USB" and then press "OK". Your cable box will restart and the new channels will be listed correctly.

Alternatively, you can bring your cable box to the CSA Service office at Joachim Becher Str. 19 between 16:00 and 17:30 Monday to Friday and we will reprogram it for you.
